ANNUAL REPORT

2025

MENTAL HEALTH AND PSYCHOSOCIAL SUPPORT SERVICE TO AFFECTED POPULATION BY THE CONFLICT

On 7 December, long-standing tensions between Cambodia and Thailand along their disputed border erupted into a major renewed conflict, breaking a fragile ceasefire that had been negotiated earlier in the year. the continue fight resulted in 192,000 displaced Cambodians. Of those displaced, some 161,000 people are displaced in the 162 displacement sites. TPO Cambodia and partners responded to the conflict provideing mental health support to displaced cambodians.

Individual counseling in the camp

Mostpeople reached by TPO Cambodia's psychologists had symptoms of stress, anxiety and depression. With counseling, TPO Cambodia has reached 88 people: 42 women, 28 girls, 2 men and 16 boys.

Child Friendly activity_drawing

Children are free to express themselves through art, activities, play and sports. Children benefit greatly from the spaces In total, the Child Friendly Spaces benefited 25,999 refugees, including 4,697 warnen,797 men, 11,613girls,and 8,892 boys.

Peer to Peer Support in the Camp

The support groups helped children manage negative emotions and express their feelings to help them cope with the trauma of living during an armed conflict. TPO Cambodia supported 447 children with groups, including 274 girls and 173 boys.

Mental health awareness raising in the camps

TPO Cambodia supported parents and caregivers living in camps by helping them to understand symptoms of mental health issues and how to address them. TPO Cambodia provided psycho-education to 3,893 caregivers, including 3,365 warnen and 528 men.
