

T P O C A M B O D I A

ANNUAL REPORT

Dear friends, this report briefly describes TPO's remarkable achievement in 2024 and our plan forward. Despite the ongoing challenges, TPO has successfully completed all projects as planned, thanks to our dedicated staff, partners, and beneficiaries.

The report highlights the key achievements, challenges, and lessons learned from each project.

We are committed to making a difference in the lives of people in need, and we look forward to the new and challenging work ahead. We wish everyone success in their work, family, and society.

Key strategic program

1. Deliver community-based mental health and psychosocial support
2. Develop the treatment centre, expand external training, and continue research

Vision

Cambodian people live with good mental health and achieve a satisfactory quality of life.

Mission

To improve the well-being of Cambodian people with psychosocial and mental health problems, thereby increasing their ability to function effectively within their work, family and community lives.

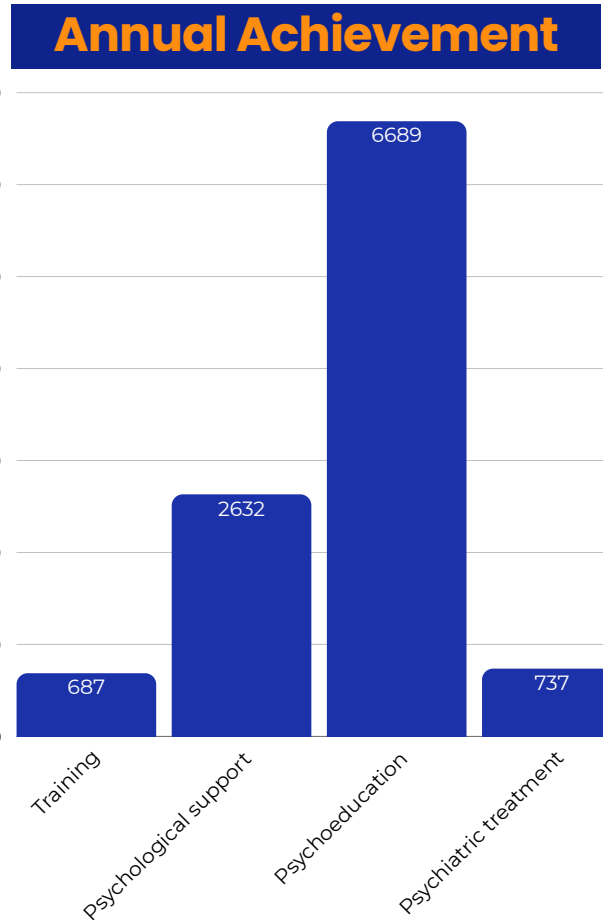

COMMUNITY MENTAL HEALTH AND PSYCHOSOCIAL SUPPORT

TPO uses three complementary approaches to provide MHPS at community level.

It builds capacity of community-based service providers, participates in multi-partner projects that address issues holistically, and addresses the MHPS needs of end-beneficiaries directly where appropriate.

This graph has shown the key achievement of service that TPO delivery

- Training to 687 members
- TPO provided psychological support to 2632 clients through individual counseling, group therapy.
- Psycho-education to 6689 community members
- Psychiatric treatment 737

Local service providers participated in the reflection

[Read More on our website](#)

Community awareness raising

This awareness raising: to promote mental health knowledge to community to be

- Able to detect when someone distress.
- To have a proper referral to counseling or psychiatric treatment

Develop the treatment centre, expand external training, and continue research

The treatment centre contributes to addressing the MHPS care gap in Cambodia and supports the sustainability of TPO as a non-for-profit organisation.

Income from the treatment centre enables TPO to sustain a stable core team of skilled professionals who are deployed onto grassroots projects, and contributes to costs not covered by donors

Research Project in the context of ECCC

Transcultural Psychosocial Organization (TPO) Cambodia and Freie Universität Berlin (FUB) in Germany has conducted a joint research project “Civil Party Experiences with the ECCC:

A 15-year long term-survey on experiences, psychological coping and recommendations for future victim-participation proceedings”.

This research aims to get insight in how your participation as a civil party or a witness affected your wellbeing and want to learn about your attitudes towards reconciliation today and in relation to the participation in the ECCC. The aim is also to better understand which factors of your participation at the ECCC you experienced as helpful or burdensome, to what extent your expectations with the participation of the ECCC

TPO Cambodia and Freie Berlin University Organized a consultation workshop on "Preliminary Results of a Research Study on the Psychological Impact of Khmer Rouge Victims Who Participated in the Extraordinary Chambers in the Courts of Cambodia (ECCC)"

were fulfilled and what recommendations for future victim-participations in international criminal tribunals you give. Results of the study can inform future war crimes proceedings.

Fund Raising Campaign “Think with PingAnn គិតជាមួយប៉េងអាន”

TPO Cambodia would like to express our deepest gratitude to Mr Ping Ann for his commitment to raise fund to support TPO Operation Unchain initiative. TPO Operation unchain aims to treat and unchain “chronic mentally ill patients” who were chained, locked or put in the cage due to the lack of treatment, poverty and the lack of social support. This fund makes the difference for many of them.
